OBJECTIVE

Motivated and responsible IT diploma student with hands-on experience installing, configuring, and troubleshooting computers and IT equipment, seeking an IT Support / IT Assistant role. Comfortable troubleshooting PCs, software, and basic network connectivity issues, with networking fundamentals built through ongoing HND IT coursework. Strong problem-solving and communication skills, eager to learn and grow within a well-established organization.

RELEVANT STRENGTHS

- **PC & Software Troubleshooting:** Regularly install, configure, and troubleshoot computer systems and software as part of ongoing personal projects.
- **Network Troubleshooting:** Hands-on experience with network-connected devices and basic connectivity troubleshooting.
- **System Installation & Configuration:** Installed, configured, and maintained software applications and database/web platforms across personal projects.
- **Security & Access Management:** Managed system access and credentials, resolving unauthenticated access and security risks through a full security audit.
- **IT Records & Documentation:** Maintained equipment/system records and technical documentation.

TECHNICAL SKILLS

- **IT Support & Systems:** Windows OS, PC/hardware troubleshooting, equipment installation & configuration, user account & access management, basic network/connectivity troubleshooting
- **Programming Languages:** Python, Java, PHP, SQL
- **Databases:** MySQL, database design & management
- **Web Development:** Astro, HTML, CSS
- **Tools & Platforms:** Microsoft Office, Git/GitHub, Postman, PyTest, Vercel, InfinityFree
- **Core Competencies:** Technical Support, Problem-Solving, Communication, IT Equipment & Records Maintenance, Team Collaboration

EDUCATION

Higher National Diploma in Information Technology (HNDIT)

Jul 2024 – Present

Advanced Technological Institute (ATI), Rathnapura — SLIATE | 2023/2024 F-Batch | Index No. RAT/IT/2324/F/0057

- Relevant Coursework: Software Engineering, Programming Individual Project, System Analysis and Design, Database Management, Object-Oriented Programming.

CERTIFICATIONS

- **IT Customer Support Basics** — Cisco Networking Academy | Sep 2026
- **Getting Started with Cisco Packet Tracer** — Cisco Networking Academy | Sep 2026

RELEVANT TECHNICAL EXPERIENCE

NeuroGuard Pro – Driver Monitoring System

Jan 2026 – Present

github.com/savishkanishad/NeuroGuard | Personal Project | Python, OpenCV, MediaPipe, Pygame, PHP, MySQL

- Install, configure, and maintain a dual-engine system — a Python monitoring engine and a PHP/MySQL web dashboard — handling day-to-day setup and troubleshooting.
- Diagnosed and resolved hardware/software performance issues to sustain 95% detection accuracy at 30 FPS.
- Managed system access and credentials, resolving unauthenticated endpoints and insecure credential handling through a full security audit.
- Maintained equipment/system records through technical documentation (System Architecture Specification).
- Supported basic network and connectivity troubleshooting for a live device-status network using a 5-second heartbeat system.

Professional Web Portfolio

github.com/savishkanishad/portfolio | Personal Project | Astro v6, Vercel, InfinityFree

- Configured, deployed, and maintained hosting, domain, and server setup across two separate platforms.

PowerCore Fitness – Web Application

github.com/savishkanishad/PowerCore-Fitness | Personal Project | HTML, CSS, JavaScript, Node.js, SQL, Vercel

- Installed, configured, and deployed a full-stack fitness business website (multi-page HTML/CSS frontend, Node.js backend, SQL data layer) to Vercel.
- Set up and troubleshooted the local development environment, dependencies, and configuration for ongoing updates.

JARVIS – AI Desktop & Web Assistant

github.com/savishkanishad/jarvis | Personal Project | Python, Tkinter, Flask, Hugging Face

- Installed, configured, and maintained a dual-platform assistant — a Tkinter desktop app and a Flask web app — including environment setup and API key configuration.
- Built and troubleshooted cross-platform utility features (reminders, notes, system-info lookup, calculator, timer).

LANGUAGES

English (Intermediate)

Sinhala
